AMENDMENTS TO THE CLAIMS

This listing of claims will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

Claim 1. (currently amended) A shoe insert comprising:

a synthetic non-woven fabric layer that contains surface fibers oriented in a vertical direction and having an inside portion and an outside portion and being made from a non-woven material with a coefficient of friction along the inside portion between about 0.52 and 0.82; and

a non-slip surface disposed along said outside portion of said fabric layer and having a coefficient of friction that is greater than the coefficient of friction of said inside portion of said fabric.

Claims 2 - 48 (canceled.)

Claim 49 (new) The shoe insert of Claim 1, wherein said non-woven material of said fabric layer is selected from the group consisting of polyethylene and poly-propylene.

Claim 50 (new) The shoe insert of Claim 1, wherein said fabric layer is treated with a surfactant.

Claim 51 (new) The shoe insert of Claim 1, wherein said non-slip surface is defined by a cohesive coating.

Claim 52 (new) The shoe insert of Claim 51, wherein said cohesive coating is selected from the group consisting of low-tack pressure sensitive adhesives, synthetic rubber and latex coatings.

Application No. 09/922,239
Amendment Dated August 27, 2003
Reply to Office Action of April 18, 2003

Claim 53 (new) The shoe insert of Claim 1, wherein said inside portion of said fabric layer has a surface treatment selected from the group consisting of a deodorizer and an anti-bacterial agent.

Claim 54 (new) The shoe insert of Claim 1, further including a material layer for incorporating said non-slip surface.

Claim 55 (new) The shoe insert of Claim 54, wherein said material layer includes an inside portion in facing relation to said outside portion of said fabric layer and an outside portion.

Claim 56 (new) The shoe insert of Claim 54, wherein said material layer includes a cohesive coating applied along the outside portion thereof for defining said non-slip surface.

C
Claim 57 (new) The shoe insert of Claim 54, wherein said material layer is made from a material selected from the group consisting of polyethylene film, polyethylene foam, polypropylene film, polyester film, co-extruded film and laminated foam, laminated foam/film, expanded polystyrene, polyurethane, expanded polypropylene and vinyl.

Claim 58 (new) The shoe insert of Claim 54, wherein said material layer comprises a first inside material made of polyethylene and a second outside material made of ethylene-vinyl-acetate.

Claim 59 (new) The shoe insert of Claim 54, wherein said material layer is bonded to said fabric layer by means selected from the group consisting of a pressure-sensitive adhesive, cold glue emulsion lamination, ultrasonic bonding, heat sealing, hydro-entanglement and stitching.

Claim 60 (new) The shoe insert of Claim 54, further including an internal ingredient sandwiched between said fabric layer and said material layer.
